

EAST FALLOWFIELD TOWNSHIP

RESOLUTION 2007-02

Whereas, Chester County, DVRPC, Penn Dot, state and federal officials will be developing priorities this year for funding of transportation improvements in Chester County and throughout the Delaware Valley, and

Whereas, a project for the reconstruction and improvement of the US 30 Coatesville Downingtown Bypass and Interchanges is included as part of this process, and

Whereas, this project would reconstruct and improve the roadway, bridges and access ramps of the US 30 Bypass between Downingtown and the county line boundary with Lancaster county, and

Whereas, the US 30 Bypass was designated and constructed decades ago and is in need of improvement and this project has been discussed and considered a priority for more than fifteen years by local, county and state officials, and

Whereas, US Route 30 is an important economic lifeline for the residents, businesses and municipalities of Western Chester County.

Now therefore be it resolved by East Fallowfield Township, that the reconstruction and improvement project for the US 30 Bypass is an immediate and high priority project and should be designated as such by county, state and federal officials. Said project should be funded at the earliest opportunity and that funding should provide for such improvements as necessary to address congestion, safety and improve the movement of traffic efficiently and effectively through our region.

Adopted this 28th day of February, 2007
