East Fallowfield Township

Q-P2-899
2009

Listed below are two different herbicide application programs to control all brush and weeds along your various township roads.

PROGRAM 1 – NON SELECTIVE ----- \$1,899.00

A non-selective application 1' in front and 2' behind all guardrails on your township roads. This application will control all vegetation around the guardrails for the full season.

PROGRAM 2 – BRUSH & BROADLEAF ----- \$2,427.00

A selective application to control brush and broadleaf weeds on all township road shoulders. This 5-6 foot application swath will control the brush and broadleaf but NOT the grasses.

All work in both programs will be done to your complete satisfaction.
