Carryover from last meeting but was not discussed :

**Outstanding Questions/Carryover from prior last meetings - but was not discussed due to lack of township engagement (I did bring these up prior to adjournment - stating that we couldn't discuss them as there was no one there to provide answers):**

Security camera / WIFI update -

1. Action Item @ Scott: Please ask the Township Verizon rep are we able to set up a service for a text number so people can text any issues in the park.
2. Action Item @ Scott: Who is covering the expense of the Wifi for the park? Monica stated that if this is becoming a bundled project where the township building police station are getting upgrades that the costs should be split and not all shouldered by the Park accounts. Clarification needed.

Current township data (video) retention policy

1. From Scott: The Township adheres to the PA Open Records Laws and the Municipal Records Manual which does not cover video. The Township does not have a separate policy for video.
  2. Action Item @Scott - See link below to the manual, I found PO-26 which appears to address video. Would this apply to our situation? Want to be clear whether there is existing policy or if one needs to be created.
  3. <https://www.phmc.pa.gov/Archives/Records-Management/Documents/2008-Municipal-Records-Manual-rev-with-links.pdf>
- \*PO-26 Video/Audio Tapes Documents officer activity including video taping of drunk drivers who have been arrested. Often used as evidence. Retain 30 days if not used as evidence.

Pond Update

1. Action Item @ Scott - Have permits been issued from the township?

Accounting (Scott)

1. Action Items @ Scott Saw that Scott posted an update on the bathroom costs on the township website. Scott - the committee would like this presented to us along with our financials. We're just looking for oversight and transparency. What's in the account, what is allocated/to be debited?
